

# PORTIMIX®

## Portable Pan Mixer

EN 1-2020

Our **PORTIMIX®** is a robust, portable, slow-speed, forced-action pan-mixer for multi-component resins, grouts and mortars and designed for fast track use. The **PORTIMIX®** will produce a smooth homogeneous compound quickly and efficiently.

The maneuverability of the **PORTIMIX®** and compact size allows it to be easily transported and get to those difficult to reach job sites. The stainless steel pan is easily removable.

The **PORTIMIX®** is supplied with two pans to allow for continuity of mixing and uninterrupted application of materials, avoiding delays and saving you time.
