

SKEG LEVELLER

ADJUSTABLE LEVELLER

10 2-2020

Our **SKEG LEVELLER** flooring tool is the perfect choice for applying self-smoothing materials to achieve a uniform thickness. It has four pre-set skeg sizes that determines the final depth of overlay. The skegs glide over the substrate with minimum tool chatter, and are available as 'tap-out tap-in' replacements in sets of four.

450MM WIDE SKEG LEVELLERS

SKEG LEVELLERS		REPLACEMENT SKEG SETS	
SL33452	2mm	SL33002	2mm
