

TRIGLIDE

ADJUSTABLE LEVELLER

KG 2-2020

The **TRIGLIDE** is a foolproof, simple to use leveller for spreading semi-flowable materials at precise thicknesses with super quick application! The **TRIGLIDE** has a stainless steel levelling scraper plate and pre-set replaceable **TRIGLIDERS** at each end with three contact points. When one contact point is worn, the wing nuts are simply loosened and the **TRIGLIDER** is then rotated to the new setting and securely fastened back into place.

TRIGLIDE SPREADER

TRIGLIDE WITH TRIGLIDERS		SET OF 2 SPARE TRIGLIDERS
